

Back Documentation Sensing Monitor — Clinical Report

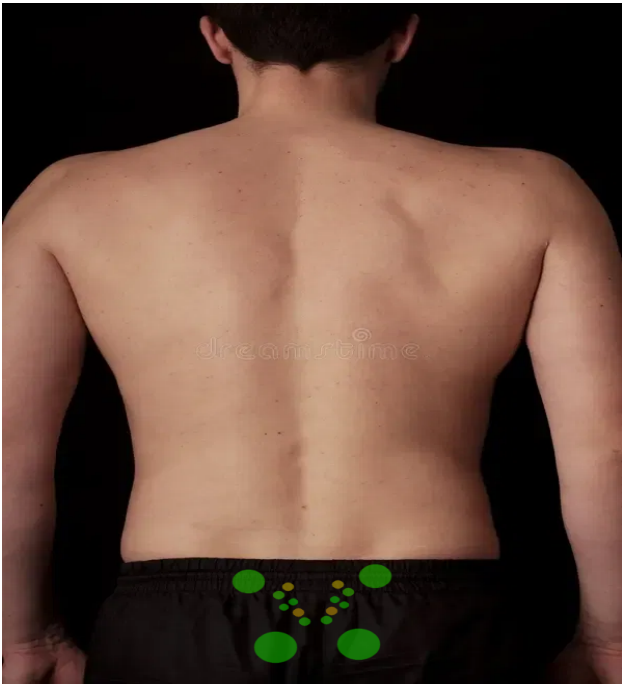

Patient P001	Session P001_S003	Date 2026-08-04	Administered by Dr Tan
-----------------	----------------------	--------------------	---------------------------

Composite Asymmetry Score

7.2%

Mean bilateral asymmetry index (frequency and stiffness pooled) across all measured landmarks. Threshold for flagging: 15%.

Tension Heat Maps

Current session

Change vs previous session

Asymmetry Index by Landmark (Top 4)

Thoracolumbar Fascia	21.5%	24.7%	■ FLAGGED
Longissimus Thoracis	18.6%	22.2%	■ FLAGGED
Quadratus Lumborum	2.6%	5.8%	
Latissimus Dorsi Lower	2.4%	4.0%	

Flagged Muscles

■ Longissimus Thoracis
■ Thoracolumbar Fascia

Muscles where frequency or stiffness asymmetry index exceeds 15%. Review treatment plan for these regions.
